

Comparison of NDMAFP and Primidone Results (Sacramento River)

Notes

1. "West Sac Intake" sampling point located approximately 16.5 miles upstream of Sacramento Regional Wastewater Treatment Plant (SRWTP) outfall.
"Hood" sampling point located approximately 7.7 miles downstream of SRWTP outfall
2. Figure prepared by Metropolitan Water District of Southern California based on available data (as of January 2010) from Delta NDMA study
